## HOMEWORK FOR THE WEEK

### Module 1

Mon: Lesson 3 Tue: Lesson 4 Wed: Lesson 5

Thur: Lesson 6 Fri: Lesson 7

### This Week

We continue our study over ratios. We'll be mastering our ability to use tape diagrams to solve for equivalent ratios. Tape Diagrams are new to many students, but is a great tool to visually understand what is occurring conceptually, not just numerically. Even though there are other ways to find equivalent ratios, which we will also learn, it is a part of our state standards to master Tape Diagrams.
