## HOMEWORK FOR THE WEEK

### Module 5

Mon: Lesson 4 Tue: Lesson 5 Wed: Lesson 6

Thur: 7 Fri: No Homework

### This Week

This week students are working on finding the area of a triangle, parallelograms and irregular shapes. Searching youtube is a great way to support students at home when they can't find their notes or can't remember something we did in class. Simply search the objective that students write down in the planner.

### **Science Fair Interviewers Needed!**

**We are in need of MANY volunteers to help interview 6th through 8th grade students about their science fair projects in the Old Junior High Gym on Wednesday, March 9 from 7:50 am until approximately 10:30 am (which is an early release day). You do NOT need to have a science background to help. We will provide you a list of questions to ask the students. The interview process gives students an opportunity to show their work to others while practicing essential communication skills. We have been able to conduct the interview process for over 17 years now thanks to our wonderful volunteers. We hope we can continue this valuable experience this year and in years to come. If this sounds like something you would be interested in helping with, PLEASE LET ME KNOW. If you are not able to help this year, perhaps you can forward this message on to a relative or friend who may be interested. Just a reminder, a volunteer application and background check must be on file at the district office in order to volunteer within the district. If you need a form, you can access it here:**
